

## Hello Again

C            F  
Hello old times  
C            G  
Hello old friend  
C                            F  
Thanks for dropping by  
C                            G  
To visit me again  
C                            F                            C                            G  
Right as the sparkle in my smile began to dim  
C                                                            F                                                            C                            G                            C  
You strode up with your charms and put your arms around my sin

G            C  
Hello, O hello again  
                                                          F                                                            C  
Can you work your wonders still  
                                                          Em            F  
My faithful friend  
F                            G                            C  
You know I hope you will

Br-1            C | F | C | G |            C | F | C - G - C

Hello old times  
Hello pretty day  
Haven't seen much of you lately  
You leave then stay away  
The hope at hand in heart, I hear her voice as she says  
"Be still young man, you knew you'd see these days"

Hello, O hello again  
Can you work your wonders still  
My faithful foe  
You know I hope you will

Br-2            C | F | C - G | C |

Right as the sparkle in my smile began to dim

You strode up with your charms and put your arms around my sin

Hello, O hello again

Can you work your wonders still

My faithful foe

You know I hope you will

Em F  
My faithful friend

F G C - G | C |

You know... I hope... you will
